While on this and drukes of reform, but he observes that tack it was a poor day when the old veterbounty jumpers while with one voice he mind with the cause of reform ' th Grand Army of the Popublic was held with equal uns onscious humor Mr Curtis ul to tleri-into as an organization chiefly declares that in expressing disappoint concerned in beating undeserved pensions ment it is but justice not to imply dis out of the Lovernment But ere long the trust In short, while burling his idol more rutional supporters of the President from its pedestal he make a desperate but il it vered that abuse of the loyal defend ers (I the country was not the best way to appeal for the popular indorsement of the people and a hait was called on this kind after nearly two years and a ha I of Cleve-of warfare. The a some one whispered in the ear of the President that the soldier vote of the Yorth would be an important factor in the next national election and employes of the government and the sub something should be done to counteract th blunders helt id made as well as the would have prevented the regular transac feelish attacks of his unwise frends

The organs change in these offices implies a change in that had but yesterday riduciled the idea the places dependent upon them. Of the that the soldiers had any claims that were 2400 Presidential postmisters who serve Lensica Department for figures to show been reappointed, and all but 300 or 400 I'r a monent be compared with Grover internal revenue collectors have been dis boys in blue. Commissioner Black issued toms 100 have been removed or not reapa daly fulletin of the work of the pension 4 omted bureau and the Chyelaid papers went 39 s libers a th which intherto gone in malighting them

The President without reading the resolutions excommendable action of the Association in marched down to the office of Commission or Black and felicitated him on having won greatly to advance a beneatelal reform the hearts of the lowa veter us by turning old soldiers out of the pension office, unit Commissioner Black expressed his thanks to Register Poseer ms for the delicate manner in which he had transmitted the conthe cert to Croyer and homself thus and ing this yers touching meilent in the planto make it appear that the I resident was all solid with the soldiers

It is really too builto pur cture this into the perfermance but in the carefully press by reison of that very hiscovery I used account sent out from Wishington it is impossible to avoid noticing that the num ef a siigh soldier in lowa does not appear anywhere in connection with the dleged resolutions. Mr Whitehead to be ure in his letter to General Poscerins re quests the presentation of the resolution in the name of at least 10 000 ex Union veterans of lows but so far as yet up pears no one but Mr Whitehead really knows whether the aforesaid resolutions vote the sentiment of a single ext mon veteran and the wonder is that as he had the filling in of the figures that he should have stopped at 10,000 when he might as well have made it 20,000 thus increasing

well have made at 20,000 thus increasing the indorsement by just 10 600. In Gen Presidents present thou of the resolutions to seen Black we find that they represent the senument of the 10 bood at its safe to sty there are not 200 Democratic veterans in that State to-day, and of that number with a survey of the collaps, and of that number with a state of the President in his treatment of old soldiers. Faken altogether this performance of Mesars (levelant Lose rans and Black on the basis of a mythical rod are acted of at least 10,000 Democratic veterans is one of the most rediction. Although the several many entities and the start to make changes among he fourth-class redictions and are acted of at least 10,000 Democratic veterans is one of the most redictions phases of the attempt now being made to counteract the just indignition of the old soldiers at the course of the Administration.

Mr Curtis on the President New York Tolling and Day of the configent to retreat over the gang plank. Reporting to his fellow civil service reformers in regard to the work of the year, he took President fact that "in a survey of the whole (public) service there has been almost as complete a change as was practicable, since an entirely new force of totally juckprefered at the finding and the called attention to the significant fact that "in a survey of the whole (public) service there has been almost as complete a change as was practicable, since an entirely new force of totally juckprefered and finding a great deal of work out of the emission of the public business "He gas-redd down much residential fever very bad live and in the appoint of the proposition of the public business "He gas-redd with a store of the total and of that the many about a sum of the start to miness the start to make changes as well and the proposition of the public business." He asserted that it would be a great wrong to the cause of which the Civil Service Lengue is the authorized national representative if it did not plainly and emphatically declare that it does not regard the administration, however worthy of re-it would be unwise to interfere spect and confidence for many reasons, as in any strict sense of the words a civil service reform administration ' He characterized the President's circular warning office holders to avoid obtrusive partisur "hip as a dead letter, 'adding that "very recently it has been ostentationaly and flagrantly defled in Bultimore, and should the deflance pass unremarked the circular

may be regarded as withdrawn " Such is the verdict of the head and front of the Mugwumps upon Mr Cleveland now that he has been President two years and five months. This interesting band of reformers may well hang their heads and array themselves in pentential heads and array themselves in pentennal sackeloth as they reflect upon what sort H. N. Mr. Curtis is tender of the President while denying that his is a reform administration. His failure to realize the high hopes which sanguine Mugwumpism entertained of him is at National Veteran Association of tributed to the fact that he found the low i f rwarded to him by one Charles spoils tradition and billu nee to be over whelming and he yielded to them despite of his engagements to pursue a differen course.
